

# CIRRUSIT

**A DIFFERENT PERSPECTIVE**

**Newsletter Summer 2007**

**TEL:- 0845 675 1500   sales@cirrusit.com   www.cirrusit.com**

## **A Bright Summer**

After another successful year, this summer Cirrus has increased their workforce again. Claire Scane previously worked in sales for a large multinational employer and was responsible for a portfolio of customers in the London area..Claire will now will responsible for the Sales and Marketing for Cirrus. Claire is happy to discuss any of your business needs to help to find a suitable solution.

Louise Pearson has joined the Cirrus team as our Technical Team manager. Louise has over 15+ year's Hr and Payroll experience in Development and Testing support and managing Teams. Louise has also been involved in writing new software. Louise will manage our team of experienced support professionals to make sure we can always deal with helpdesk queries as quickly as possible.

## **Yourself**

Cirrus can assist with any aspect of your implementation of the Yourself module to allow your employees access to their own personal data.

This can include the initial installation of the base product followed by customisation that will meet your organisations requirements Cirrus can brand the product using your own company logos, intranet design etc"

For more information please register your interest by email to [sales@cirrusit.com](mailto:sales@cirrusit.com)

Support can be contacted on  
**0845 675 1502**

## **Integration of external data into PS enterprise**

Some customers hold important related information outside of their PSe Applications.

Life might be easier for them if this data could be input, maintained and made accessible for reporting within the Pse environment.

We can provide a seamless storage facility to fully integrate this data.

Automatic number generation and sophisticated search facilities allow both ease of input and access for such information.

Assistance is also available in updating Impromptu Catalogue's and the building of new reports.

We can add new menu options and icon shortcuts for bespoke windows and applications and even external applications to the existing PS enterprise menu's.

Shortcut key commands can be developed on PS enterprise and bespoke work to cater for all needs, like document loading, outputting excel reports and log files as well as help files and user documentation on parts of the product that needs it.

## Payroll

Our significant experience looking after major corporate payroll systems means that we can provide you with an effective payroll system managed by our dedicated and experienced team of professionals.

Our Payroll outsourcing services means that you can concentrate on the business at hand, instead of all that paperwork, payroll, tax laws and more

In the same way that we tailor all our consultancy to work in a way that suits you, we will make sure our Payroll Bureau works in the way that is best suited to your organisation.

We will host your payroll services at a state of the art Payroll Processing Centre, ensuring discrete and secure handling of your payroll information, strictly in accordance with the data protection act.

Our service will include a fully managed BACS processing service.

**For more information about the Cirrus Payroll solution please contact our sales and Marketing on 0845 675 1500 or [sales@cirrusit.com](mailto:sales@cirrusit.com) for a free quote**

## PS enterprise MS.net upgrade

As you may or may not be aware PS enterprise is soon to be upgraded in MS. Net. Many of you have bespoke codes which could be affected by the change and may need modernisation. Without bespoke software support or you do not have the resources to make the changes you will need someone to do it for you.

This is where Cirrus IT can step in. We can do this work for you at a very competitive price.

It is difficult to say exactly how much work will be involved at the moment, until the upgrade actually comes out and it will largely depend on your own individual bespoke software.

If you have concerns then please do not hesitate to call Claire
